ANGUS CHEMICAL COMPANY encourages and expects you to read and understand the entire (M)SDS, as there is important information throughout the document. We expect you to follow the precautions identified in this document unless your use conditions would necessitate other appropriate methods or actions.

1. PRODUCT AND COMPANY IDENTIFICATION

Product name: ALKATERGE ® T, Oxazoline

Manufacturer or supplier's details
Company name of supplier: ANGUS CHEMICAL COMPANY

Address: 1500 E. LAKE COOK ROAD
Buffalo Grove IL 60089-6553

Customer Information Number: +1-847-808-3711

E-mail address: NAR_CC@ANGUS.COM

Emergency telephone number: 800-424-9300

Recommended use of the chemical and restrictions on use
Recommended use: Corrosion inhibitor.
Pigment dispersion.
The ANGUS Chemical Company recommends that you use this product in a manner consistent with the listed use. If your intended use is not consistent with the stated use, please contact the Customer Information Group (see Section 1 of this data sheet).

2. HAZARDS IDENTIFICATION

GHS Classification
Not a hazardous substance or mixture.

GHS Label elements, including precautionary statements
This product is not hazardous per the Globally Harmonized System of Classification and Labelling (GHS).
**Other hazards**
None known.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is a substance.

### 4. FIRST AID MEASURES

| If inhaled                        | Move person to fresh air; if effects occur, consult a physician. |
| In case of skin contact           | Wash off with plenty of water.                        |
| In case of eye contact            | Flush eyes with plenty of water; remove contact lenses after the first 1-2 minutes then continue flushing for several minutes. Only mechanical effects expected. If effects occur, consult a physician, preferably an ophthalmologist. |
| If swallowed                      | If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by medical personnel. |

**Most important symptoms and effects, both acute and delayed**
Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.

**Protection of first-aiders**
If potential for exposure exists refer to Section 8 for specific personal protective equipment.

**Notes to physician**
Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. No specific antidote.

### 5. FIREFIGHTING MEASURES

**Suitable extinguishing media**
Water fog or fine spray.
Carbon dioxide fire extinguishers.
Dry chemical fire extinguishers.
Foam.
Alcohol resistant foams (ATC type) are preferred. General purpose synthetic foams (including AFFF) or protein foams may function, but will be less effective.

**Unsuitable extinguishing**
No data available
Specific hazards during firefighting

Violent steam generation or eruption may occur upon application of direct water stream to hot liquids.

Hazardous combustion products

During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include and are not limited to:
- Carbon dioxide.
- Carbon monoxide.
- Nitrogen oxides.

Further information

Cool surroundings with water to localize fire zone. Keep people away. Isolate fire and deny unnecessary entry. Do not use direct water stream. May spread fire. Burning liquids may be moved by flushing with water to protect personnel and minimize property damage.

Special protective equipment for firefighters

Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.

Environmental precautions

Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.

Methods and materials for containment and cleaning up

Contain spilled material if possible. Collect in suitable and properly labeled containers. See Section 13, Disposal Considerations, for additional information.

7. HANDLING AND STORAGE

Advice on safe handling

Containers, even those that have been emptied, can contain vapors. Do not cut, drill, grind, weld, or perform similar operations on or near empty containers. See Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION.

Conditions for safe storage

No specific requirements.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters
Contains no substances with occupational exposure limit values.

**Engineering measures**

Local exhaust ventilation may be necessary for some operations. Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations.

**Personal protective equipment**

**Respiratory protection**
Under intended handling conditions, no respiratory protection should be needed.

**Hand protection**
Use gloves chemically resistant to this material when prolonged or frequently repeated contact could occur. Examples of preferred glove barrier materials include: Neoprene. Polyvinyl chloride ("PVC" or "vinyl"). Nitrile butadiene rubber ("nitrile" or "NBR"). NOTICE: The selection of a specific glove for a particular application and duration of use in a workplace should also take into account all relevant workplace factors such as, but not limited to: Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove materials, as well as the instructions/specifications provided by the glove supplier.

**Eye protection**
Use safety glasses (with side shields).

**Skin and body protection**
Wear clean, body-covering clothing.

Method: A.S.T.M. D-92
Test Type: Cleveland open cup

Evaporation rate
No test data available

Flammability (solid, gas)
No data available.

Upper explosion limit
Not applicable

Lower explosion limit
Not applicable

Vapor Pressure
(20 °C)
Method: Literature
Nil

Relative Vapor Density (air = 1)
Not applicable

Relative density
No data available.

Water solubility
Method: Literature
Negligible

Partition coefficient: n-octanol/water
log Pow: 7.46
Method: Estimated.
Bioconcentration potential is low (BCF less than 100 or log Pow greater than 7).

Auto-ignition temperature
Not applicable

Decomposition temperature
No test data available

Viscosity
Viscosity, dynamic
Not applicable

Viscosity, kinematic
Not applicable

Explosive properties
No data available.

Oxidizing properties
No data available.

Fire Point
278
Method: ASTM D92

Molecular weight
No test data available

NOTE: The physical data presented above are typical values and should not be construed as a specification.

10. STABILITY AND REACTIVITY
Reactivity
Stable under recommended storage conditions.

Chemical stability
Thermally stable at typical use temperatures.

Possibility of hazardous reactions
Polymerization will not occur.

Conditions to avoid
Exposure to elevated temperatures can cause product to decompose.

Incompatible materials
Avoid contact with:
Strong acids.
Strong oxidizers.

Hazardous decomposition products
Decomposition products depend upon temperature, air supply and the presence of other materials.

11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.

Acute toxicity

Product:

Acute oral toxicity
Remarks: Small amounts swallowed incidentally as a result of normal handling operations are not likely to cause injury; however, swallowing larger amounts may cause injury.
Low toxicity if swallowed.

LD50 (Mouse): > 5,000 mg/kg

Acute inhalation toxicity
Remarks: The LC50 has not been determined.

Remarks: At room temperature, exposure to vapor is minimal due to low volatility; single exposure is not likely to be hazardous.

Acute dermal toxicity
Remarks: Prolonged skin contact is unlikely to result in absorption of harmful amounts.

Remarks: The dermal LD50 has not been determined.

Skin corrosion/irritation

Product:
Remarks: Prolonged contact may cause slight skin irritation with local redness.

Serious eye damage/eye irritation

Product:
Remarks: May cause slight temporary eye irritation.
Corneal injury is unlikely.
Respiratory or skin sensitization

**Product:**
Remarks: For skin sensitization: 
No relevant data found.

Remarks: For respiratory sensitization: 
No relevant data found.

Carcinogenicity

**Product:**
No relevant data found.

**IARC**
No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

**OSHA**
No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

**NTP**
No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Teratogenicity

**Product**
No relevant data found.

Mutagenicity

**Product**
No relevant data found.

Reproductive toxicity

**Product:**
No relevant data found.

**STOT - single exposure**

**Product:**
Assessment: Evaluation of available data suggests that this material is not an STOT-SE toxicant.

Repeated dose toxicity

**Product:**
Remarks: Based on available data, repeated exposures are not anticipated to cause significant adverse effects.
Aspiration toxicity

Product: Aspiration Hazard
Based on physical properties, not likely to be an aspiration hazard.

12. ECOLOGICAL INFORMATION

Ecotoxicity

Product: Toxicity to fish
Remarks: Material is slightly toxic to aquatic organisms on an acute basis (LC50/EC50 between 10 and 100 mg/L in the most sensitive species tested).

LC50 (Leuciscus idus (Golden orfe)): 2,100 mg/l
Exposure time: 96.0 h
Test Type: static test
Method: OECD Test Guideline 203 or Equivalent

Toxicity to algae
ErC50 (alga Scenedesmus sp.): 56 - 67 mg/l
End point: Growth rate inhibition
Exposure time: 72 h
Method: OECD Test Guideline 201 or Equivalent

Toxicity to bacteria
EC50 (Bacteria): > 10,000 mg/l
End point: Respiration rates.
Exposure time: 0.5 h
Method: OECD 209 Test

Persistence and degradability

Product: Biodegradability
Result: Not readily biodegradable.
Remarks: Based on stringent OECD test guidelines, this material cannot be considered as readily biodegradable; however, these results do not necessarily mean that the material is not biodegradable under environmental conditions.

Biodegradation: 32 %
Exposure time: 28 d
Method: OECD Test Guideline 301D or Equivalent
Remarks: 10-day Window: Fail

Chemical Oxygen Demand (COD)
2.190 mg/mg Method: Estimated.

Bioaccumulative potential

Product: Bioaccumulation
Species: Fish.
Bioconcentration factor (BCF): 30
Remarks: The following information is based on limited data and/or screening studies.
13. DISPOSAL CONSIDERATIONS

Disposal methods
Waste from residues

DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER. All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator. THE INFORMATION PRESENTED HERE PERTAINS ONLY TO THE PRODUCT AS SHIPPED IN ITS INTENDED CONDITION AS DESCRIBED IN MSDS SECTION: Composition Information. FOR UNUSED & UNCONTAMINATED PRODUCT, the preferred options include sending to a licensed, permitted: Incinerator or other thermal destruction device. Landfill. ANGUS HAS NO CONTROL OVER THE MANAGEMENT PRACTICES OR MANUFACTURING PROCESSES OF PARTIES HANDLING OR USING THIS MATERIAL.

14. TRANSPORT INFORMATION

International Regulation
IATA-DGR
Not regulated as a dangerous good
IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

National Regulations

49 CFR (DOT) – NON BULK
Not regulated as a dangerous good

49 CFR (DOT) - BULK
Not regulated as a dangerous good

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

15. REGULATORY INFORMATION

OSHA Hazards This product is not a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

EPCRA - Emergency Planning and Community Right-to-Know Act

CERCLA Reportable Quantity
This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity
This material does not contain any components with a section 304 EHS RQ.

SARA 311/312 Hazards This product is not a hazardous chemical under 29CFR 1910.1200, and therefore is not covered by Title III of SARA.

SARA 302 No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

Clean Air Act
This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 12 (40 CFR 61).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC’s (40 CFR 60.489).

Clean Water Act
This product does not contain any Hazardous Substances listed under the U.S. CleanWater Act, Section 311, Table 116.4A. This product does not contain any Hazardous Chemicals listed under the U.S. CleanWater Act, Section 311, Table 117.3. This product does not contain any toxic pollutants listed under the U.S. Clean Water Act Section 307

**US State Regulations**

**Massachusetts Right To Know**
No components are subject to the Massachusetts Right to Know Act.

**Pennsylvania Right To Know**
The following chemicals are listed because of the additional requirements of Pennsylvania law:

<table>
<thead>
<tr>
<th>Cas No.</th>
<th>Component</th>
</tr>
</thead>
<tbody>
<tr>
<td>28984-69-2</td>
<td>2-Heptadecenyl-4,4(5H)-oxazoledimethanol</td>
</tr>
</tbody>
</table>

**New Jersey Right To Know**
The following chemicals are listed because of the additional requirements of New Jersey law:

<table>
<thead>
<tr>
<th>Cas No.</th>
<th>Component</th>
</tr>
</thead>
<tbody>
<tr>
<td>28984-69-2</td>
<td>2-Heptadecenyl-4,4(5H)-oxazoledimethanol</td>
</tr>
</tbody>
</table>

**California Prop. 65**
This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

The components of this product are reported in the following inventories:
- United States TSCA Inventory
- All Components OK
16. OTHER INFORMATION

Further information

**NFPA:**

- **Flammability:** 1
- **Health:** 0
