ANGUS CHEMICAL COMPANY encourages and expects you to read and understand the entire (M)SDS, as there is important information throughout the document. We expect you to follow the precautions identified in this document unless your use conditions would necessitate other appropriate methods or actions.

1. PRODUCT AND COMPANY IDENTIFICATION

Product name: AMPD™ Ultra PC, Neutralizing Amine

Manufacturer or supplier's details
Company name of supplier: ANGUS CHEMICAL COMPANY
Address: 1500 E. LAKE COOK ROAD
Buffalo Grove IL 60089-6553

Customer Information Number: +1-847-808-3711
E-mail address: NAR_CC@ANGUS.COM

Emergency telephone number: 800-424-9300

Recommended use of the chemical and restrictions on use
Recommended use: Neutralizing agent.
Use in personal care products
For industrial use.
The ANGUS Chemical Company recommends that you use this product in a manner consistent with the listed use. If your intended use is not consistent with the stated use, please contact the Customer Information Group (see Section 1 of this data sheet).

2. HAZARDS IDENTIFICATION

GHS Classification
Serious eye damage: Category 1
GHS Label elements, including precautionary statements

Hazard pictograms

Signal word Danger

Hazard statements Causes serious eye damage.

Precautionary statements Prevention:
Wear eye protection/ face protection.

Response:
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/ physician.

Other hazards
None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is a substance.

Components

<table>
<thead>

<td>2-Amino-2-methyl-1,3-propanediol</td>
<td>115-69-5</td>
<td>&gt;= 99.0 %</td>
</tr>
</tbody>
</table>

4. FIRST AID MEASURES

If inhaled Move person to fresh air; if effects occur, consult a physician.

In case of skin contact Suitable emergency safety shower facility should be available in work area. Wash off with plenty of water.

In case of eye contact Wash immediately and continuously with flowing water for at least 30 minutes. Remove contact lenses after the first 5 minutes and continue washing. Obtain prompt medical consultation, preferably from an ophthalmologist. Suitable emergency eye wash facility should be immediately available.

If swallowed Do not induce vomiting. Give one cup (8 ounces or 240 ml) of
water or milk if available and transport to a medical facility. Do not give anything by mouth unless the person is fully conscious.

### Most important symptoms and effects, both acute and delayed

Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.

### Protection of first-aiders

First Aid responders should pay attention to self-protection and use the recommended protective clothing (chemical resistant gloves, splash protection). If potential for exposure exists refer to Section 8 for specific personal protective equipment.

### Notes to physician

Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

No specific antidote. Due to irritant properties, swallowing may result in burns/ulceration of mouth, stomach and lower gastrointestinal tract with subsequent stricture. Aspiration of vomitus may cause lung injury. Suggest endotracheal/esophageal control if lavage is done.

Have the Safety Data Sheet, and if available, the product container or label with you when calling a poison control center or doctor, or going for treatment.

---

### 5. FIREFIGHTING MEASURES

#### Suitable extinguishing media

- Water fog or fine spray.
- Carbon dioxide fire extinguishers.
- Dry chemical fire extinguishers.
- Foam.

#### Specific hazards during firefighting

- None known.

#### Hazardous combustion products

- During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating.
- Combustion products may include and are not limited to: Carbon dioxide. Carbon monoxide. Nitrogen oxides.

#### Further information

- Soak thoroughly with water to cool and prevent re-ignition.
- Cool surroundings with water to localize fire zone.
- If material is molten, do not apply direct waterstream. Use fine water spray or foam.
- Keep people away. Isolate fire and deny unnecessary entry.

#### Special protective equipment for firefighters

- Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves).
- If protective equipment is not available or not used, fight fire
from a protected location or safe distance.

6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**
- Isolate area.
- Keep unnecessary and unprotected personnel from entering the area.
- Refer to section 7, Handling, for additional precautionary measures.
- Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.

**Environmental precautions**
- Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.

**Methods and materials for containment and cleaning up**
- Contain spilled material if possible.
- Collect in suitable and properly labeled containers.
- See Section 13, Disposal Considerations, for additional information.

7. HANDLING AND STORAGE

**Advice on safe handling**
- Keep container closed.
- Avoid contact with eyes, skin, and clothing.
- Good housekeeping and controlling of dusts are necessary for safe handling of product.
- Avoid generating and breathing dust.
- Wash thoroughly after handling.
- See Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION.

**Conditions for safe storage**
- Keep container tightly closed when not in use.
- Store in a cool, dry place.
- Store in original container.
- Do not store in:
  - Zinc.
  - Galvanized containers.
  - Aluminum.
  - Copper.
  - Copper alloys.
  - Brass.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Components with workplace control parameters**
Contains no substances with occupational exposure limit values.

**Engineering measures**
- Local exhaust ventilation may be necessary for some operations.
- Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or
guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations.

**Personal protective equipment**

Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process.

In dusty or misty atmospheres, use an approved particulate respirator.

The following should be effective types of air-purifying respirators:
- Particulate filter.

Hand protection

Use gloves chemically resistant to this material when prolonged or frequently repeated contact could occur. Examples of preferred glove barrier materials include: Neoprene, Polyvinyl chloride ("PVC" or "vinyl"), Nitrile/butadiene rubber ("nitrile" or "NBR"). NOTICE: The selection of a specific glove for a particular application and duration of use in a workplace should also take into account all relevant workplace factors such as, but not limited to: Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove materials, as well as the instructions/specifications provided by the glove supplier.

Eye protection

Use chemical goggles.

Skin and body protection

When prolonged or frequently repeated contact could occur, use protective clothing chemically resistant to this material. Selection of specific items such as faceshield, boots, apron, or full-body suit will depend on the task.

10. STABILITY AND REACTIVITY

Reactivity
No dangerous reaction known under conditions of normal use.

Chemical stability
Hygroscopic
Stable under recommended storage conditions. See Storage, Section 7.

Possibility of hazardous reactions
Polymerization will not occur.

Conditions to avoid
Exposure to elevated temperatures can cause product to decompose.
Avoid moisture.

Incompatible materials
Corrosive when wet.
Avoid contact with:
Strong acids.
Strong oxidizers.
Avoid contact with metals such as:
Zinc.
Galvanized metals.
Aluminum.
Copper.
Copper alloys.
Brass.
Avoid unintended contact with:
Halogenated hydrocarbons.

Hazardous decomposition products
Decomposition products depend upon temperature, air supply and the presence of other materials.

11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.

Acute toxicity

Product:

Acute oral toxicity
Remarks: Swallowing may result in irritation or burns of the mouth, throat, and gastrointestinal tract.
Low toxicity if swallowed.

LD50 (Mouse): 3,500 mg/kg

Acute inhalation toxicity
Remarks: At room temperature, exposure to vapor is minimal due to low volatility.
Dust may cause irritation to upper respiratory tract (nose and
Remarks: The LC50 has not been determined.

Acute dermal toxicity Remarks: Prolonged skin contact is unlikely to result in absorption of harmful amounts. Remarks: The dermal LD50 has not been determined.

Skin corrosion/irritation

**Product:**
Result: No skin irritation
Remarks: Prolonged contact may cause severe skin irritation with local redness and discomfort. Brief contact may cause skin irritation with local redness.

Serious eye damage/eye irritation

**Product:**
Result: Corrosive
Remarks: May cause severe irritation with corneal injury which may result in permanent impairment of vision, even blindness. Chemical burns may occur.

Respiratory or skin sensitization

**Product:**
Remarks: For skin sensitization:
Did not cause allergic skin reactions when tested in humans.

Remarks: For respiratory sensitization:
No relevant data found.

Carcinogenicity

**Product:**
No relevant data found.

**IARC**
No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

**OSHA**
No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

**NTP**
No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Teratogenicity

**Product**
No relevant data found.
Mutagenicity

Product
In vitro genetic toxicity studies were negative.

Reproductive toxicity

Product:
No relevant data found.

STOT - single exposure

Product:
Assessment: Evaluation of available data suggests that this material is not an STOT-SE toxicant.

Repeated dose toxicity

Product:
Remarks: No relevant data found.

Aspiration toxicity

Product:
Aspiration Hazard Based on physical properties, not likely to be an aspiration hazard.

12. ECOLOGICAL INFORMATION

Ecotoxicity

Product:
Toxicity to fish
Remarks: Material is practically non-toxic to fish on an acute basis (LC50 > 100 mg/L).

LC50 (Danio rerio (zebra fish)): > 10,000 mg/l
Exposure time: 96.0 h
Test Type: static test
Method: OECD Test Guideline 203 or Equivalent

Toxicity to bacteria
EC50 (Bacteria): > 10,000 mg/l
End point: Respiration rates.
Exposure time: 16 h

Persistence and degradability

Product:
Biodegradability Result: Readily biodegradable
Remarks: Material is ultimately biodegradable (reaches > 70% mineralization in OECD test(s) for inherent biodegradability).
Product name: AMPD Ultra PC, Neutralizing Amine  
Issue Date: 01/31/2018

Biodegradation: 96.7%  
Exposure time: 28 d  
Method: OECD Test Guideline 302C or Equivalent  
Remarks: 10-day Window: Not applicable

ThOD  
2.130 mg/mg  
Method: Estimated.

Photodegradation  
Rate constant: Degradation half life: 0.359 d  
Method: Estimated.

Bioaccumulative potential

Product:
Partition coefficient: n-octanol/water  
log Pow: -1.1  
Method: Estimated.  
Remarks: Bioconcentration potential is low (BCF < 100 or Log Pow < 3).

Mobility in soil

Product:
Distribution among environmental compartments  
Koc: 1  
Method: Estimated.  
Remarks: Potential for mobility in soil is very high (Koc between 0 and 50).

Other adverse effects

Product:  
Ozone-Depletion Potential  
Regulation: 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I Substances  
Remarks: This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

13. DISPOSAL CONSIDERATIONS

Disposal methods  
Waste from residues  
DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER. All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator. THE INFORMATION PRESENTED HERE PERTAINS ONLY TO THE PRODUCT AS SHIPPED IN ITS INTENDED CONDITION AS DESCRIBED IN MSDS SECTION: Composition Information.
FOR UNUSED & UNCONTAMINATED PRODUCT, the preferred options include sending to a licensed, permitted: Incinerator or other thermal destruction device. Landfill.
ANGUS HAS NO CONTROL OVER THE MANAGEMENT PRACTICES OR MANUFACTURING PROCESSES OF PARTIES HANDLING OR USING THIS MATERIAL.

14. TRANSPORT INFORMATION

International Regulation

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

National Regulations

49 CFR (DOT) – NON BULK
Not regulated as a dangerous good

49 CFR (DOT) - BULK
Not regulated as a dangerous good

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

15. REGULATORY INFORMATION

OSHA Hazards
This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

EPCRA - Emergency Planning and Community Right-to-Know Act

CERCLA Reportable Quantity
This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity
This material does not contain any components with a section 304 EHS RQ.
SARA 311/312 Hazards
Acute Health Hazard

SARA 302
No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313
This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

Clean Air Act
This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App. A + B).
This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 12 (40 CFR 61).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC’s (40 CFR 60.489).

Clean Water Act
This product does not contain any Hazardous Substances listed under the U.S. Clean Water Act, Section 311, Table 116.4A.
This product does not contain any Hazardous Chemicals listed under the U.S. Clean Water Act, Section 311, Table 117.3.
This product does not contain any toxic pollutants listed under the U.S. Clean Water Act Section 307.

US State Regulations

Massachusetts Right To Know
No components are subject to the Massachusetts Right to Know Act.

Pennsylvania Right To Know
The following chemicals are listed because of the additional requirements of Pennsylvania law:
