ANGUS CHEMICAL COMPANY encourages and expects you to read and understand the entire (M)SDS, as there is important information throughout the document. We expect you to follow the precautions identified in this document unless your use conditions would necessitate other appropriate methods or actions.

1. PRODUCT AND COMPANY IDENTIFICATION

<table>
<thead>

</table>

Recommended use of the chemical and restrictions on use

Recommended use
- For laboratory use.
- Life sciences research chemical.

The ANGUS Chemical Company recommends that you use this product in a manner consistent with the listed use. If your intended use is not consistent with the stated use, please contact the Customer Information Group (see Section 1 of this data sheet).

2. HAZARDS IDENTIFICATION

GHS Classification
- Not a hazardous substance or mixture.

GHS Label elements, including precautionary statements
This product is not hazardous per the Globally Harmonized System of Classification and Labelling (GHS).

**Other hazards**
None known.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is a substance.

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>CAS-No.</th>
<th>Concentration (% w/w)</th>

</tr>
</tbody>
</table>

### 4. FIRST AID MEASURES

- **If inhaled**: Move person to fresh air; if effects occur, consult a physician.
- **In case of skin contact**: Remove material from skin immediately by washing with soap and plenty of water. Remove contaminated clothing and shoes while washing. Seek medical attention if irritation persists. Wash clothing before reuse. Discard items which cannot be decontaminated, including leather articles such as shoes, belts and watchbands.
- **In case of eye contact**: Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If effects occur, consult a physician, preferably an ophthalmologist.
- **If swallowed**: If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by medical personnel.
- **Most important symptoms and effects, both acute and delayed**: Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.
- **Protection of first-aiders**: First Aid responders should pay attention to self-protection and use the recommended protective clothing (chemical resistant gloves, splash protection). If potential for exposure exists refer to Section 8 for specific personal protective equipment.
- **Notes to physician**: Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. No specific antidote. Attempt seizure control with diazepam 5-10 mg (adults) intravenous over 2-3 minutes. Repeat every 5-10 minutes as needed. Monitor for hypotension, respiratory depression, and need for intubation. Consider second agent if seizures persist after 30 mg. If seizures persist or recur administer phenobarbital 600-1200 mg (adults) intravenous diluted in 60 ml 0.9% saline given at
25-50 mg/minute. Evaluate for hypoxia, dysrhythmia, electrolyte disturbance, hypoglycemia (treat adults with dextrose 100 mg intravenous).

### 5. FIREFIGHTING MEASURES

**Suitable extinguishing media**
- Water.
- Carbon dioxide fire extinguishers.
- Dry chemical fire extinguishers.

**Specific hazards during firefighting**
- Pneumatic conveying and other mechanical handling operations can generate combustible dust. To reduce the potential for dust explosions, do not permit dust to accumulate.

**Hazardous combustion products**
- During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating.
- Combustion products may include and are not limited to:
  - Carbon dioxide.
  - Carbon monoxide.
  - Nitrogen oxides.
  - Phosphorus oxides.

**Further information**
- Hand held dry chemical or carbon dioxide extinguishers may be used for small fires.
- Soak thoroughly with water to cool and prevent re-ignition.
- Keep people away. Isolate fire and deny unnecessary entry.
- Processing this product may generate dusts. Dust explosion hazard may result from forceful application of fire extinguishing agents.

**Special protective equipment for firefighters**
- Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves).
- If protective equipment is not available or not used, fight fire from a protected location or safe distance.

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**
- Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.

**Environmental precautions**
- Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.

**Methods and materials for containment and cleaning up**
- See Section 13, Disposal Considerations, for additional information.
- Contain spilled material if possible.
- Collect in suitable and properly labeled containers.
- Use care to minimize generation of airborne dust.
7. HANDLING AND STORAGE

Advice on safe handling
Keep container closed.
Good housekeeping and controlling of dusts are necessary for safe handling of product.
See Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION.
Avoid generating and breathing dust.
Wash thoroughly after handling.
Avoid contact with skin and clothing.

Conditions for safe storage
Protect against light.
Keep container tightly closed in a dry and well-ventilated place.
Store at controlled room temperature of approximately 20-25C as per USP definition.
Avoid moisture.
Shelf life: Use within 60 MONTHS

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters
Contains no substances with occupational exposure limit values.

Engineering measures
Local exhaust ventilation may be necessary for some operations.
Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations.

Personal protective equipment

Respiratory protection
Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process.
In dusty or misty atmospheres, use an approved particulate respirator.
The following should be effective types of air-purifying respirators:
Particulate filter.

Hand protection
Use gloves chemically resistant to this material when prolonged or frequently repeated contact could occur.
Examples of preferred glove barrier materials include:
Neoprene. Polyvinyl chloride ("PVC" or "vinyl").
Nitrile/butadiene rubber ("nitrile" or "NBR"). NOTICE: The
selection of a specific glove for a particular application and
duration of use in a workplace should also take into account
all relevant workplace factors such as, but not limited to:
Other chemicals which may be handled, physical
requirements (cut/puncture protection, dexterity, thermal
protection), potential body reactions to glove materials, as
well as the instructions/specifications provided by the glove
supplier.

Eye protection  Use safety glasses (with side shields).
Skin and body protection  Wear clean, body-covering clothing.

Product name: Cyanocobalamin, USP Grade (Vitamin B12)

### Water solubility
soluble in water

### Partition coefficient: n-octanol/water
log Pow: 3.57
Method: Estimated.
Bioconcentration potential is moderate (BCF between 100 and 3000 or Log Pow between 3 and 5).

### Auto-ignition temperature
No test data available

### Decomposition temperature
Literature

### Viscosity
Viscosity, kinematic
Not applicable

### Explosive properties
No data available.

### Oxidizing properties
No data available.

### Molecular weight
1,355.39 g/mol
Method: Literature

### Hygroscopic
yes

**NOTE:** The physical data presented above are typical values and should not be construed as a specification.

### 10. STABILITY AND REACTIVITY

**Reactivity**
No dangerous reaction known under conditions of normal use.

**Chemical stability**
Stable.
Hygroscopic

**Possibility of hazardous reactions**
Polymerization will not occur.

**Conditions to avoid**
Decomposes on exposure to light.
Avoid moisture.

**Incompatible materials**
Avoid contact with:
Strong acids.

**Hazardous decomposition products**
Decomposition products depend upon temperature, air supply and the presence of other materials.

### 11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.
**Acute toxicity**

**Product:**

**Acute oral toxicity**
- Remarks: May cause nausea and vomiting.
- Small amounts swallowed incidentally as a result of normal handling operations are not likely to cause injury; however, swallowing larger amounts may cause injury.
- Swallowing may result in gastrointestinal irritation.
- Low toxicity if swallowed.
- Excessive exposure may cause:
  - Tremors.
  - Convulsions.
  - Remarks: Single dose oral LD50 has not been determined.

**Acute inhalation toxicity**
- Remarks: Dust may cause irritation to upper respiratory tract (nose and throat).
- No adverse effects are anticipated from inhalation.
  - Remarks: The LC50 has not been determined.

**Acute dermal toxicity**
- Remarks: Prolonged skin contact is unlikely to result in absorption of harmful amounts.
  - Remarks: The dermal LD50 has not been determined.

**Components:**

**Cyanocobalamin**

**Acute oral toxicity**
- Remarks: Convulsions.
- May cause nausea and vomiting.
- Single dose oral LD50 has not been determined.
- Tremors.
  - Excessive exposure may cause:

**Acute inhalation toxicity**
- Remarks: Dust may cause irritation to upper respiratory tract (nose and throat).
- No adverse effects are anticipated from inhalation.
  - Remarks: The LC50 has not been determined.

**Acute dermal toxicity**
- Remarks: The dermal LD50 has not been determined.

**Skin corrosion/irritation**

**Product:**
- Remarks: Prolonged contact may cause skin irritation with local redness.

**Components:**

**Cyanocobalamin**
- Remarks: Prolonged contact may cause skin irritation with local redness.
Serious eye damage/eye irritation

**Product:**
Remarks: May cause slight temporary eye irritation.

**Components:**
Cyanocobalamin
Remarks: May cause slight temporary eye irritation.

Respiratory or skin sensitization

**Product:**
Remarks: Skin contact may cause an allergic skin reaction in a small proportion of individuals.
Remarks: No relevant data found.
For respiratory sensitization:

**Components:**
Cyanocobalamin
Remarks: Skin contact may cause an allergic skin reaction in a small proportion of individuals.
Remarks: No relevant data found.
For respiratory sensitization:

Carcinogenicity

**Product:**
No relevant data found.

**Components:**
Cyanocobalamin
No relevant data found.

IARC
No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA
No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

NTP
No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Teratogenicity
Product name: Cyanocobalamin, USP Grade (Vitamin B12)

Issue Date: 11/02/2017

12. ECOLOGICAL INFORMATION

Ecotoxicity

Product:
Toxicity to fish

**Components:**
Cyanocobalamin

Remarks: No relevant data found.

**Persistence and degradability**

**Product:**
Biodegradability

Remarks: No relevant data found.

**Components:**
Cyanocobalamin

Biodegradability

Remarks: No relevant data found.

**Bioaccumulative potential**

**Product:**
Partition coefficient: n-octanol/water

log Pow: 3.57

Method: Estimated.

Remarks: Bioconcentration potential is moderate (BCF between 100 and 3000 or Log Pow between 3 and 5).

**Components:**
Cyanocobalamin

Partition coefficient: n-octanol/water

log Pow: 3.57

Method: Estimated.

Remarks: Bioconcentration potential is moderate (BCF between 100 and 3000 or Log Pow between 3 and 5).

**Mobility in soil**

**Product:**
Distribution among environmental compartments

Remarks: No relevant data found.

**Components:**
Cyanocobalamin

Distribution among environmental compartments

Remarks: No relevant data found.

**Other adverse effects**

**Product:**
Ozone-Depletion Potential

Regulation: 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I
Cyanocobalamin, USP Grade (Vitamin B12)

Substances
Remarks: This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

Components:
Cyanocobalamin

Results of PBT and vPvB assessment
This substance has not been assessed for persistence, bioaccumulation and toxicity (PBT).

Ozone-Depletion Potential
Remarks: No relevant data found.

13. DISPOSAL CONSIDERATIONS

Disposal methods
Waste from residues

DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER.
All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations.
Regulations may vary in different locations.
Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator.
AS YOUR SUPPLIER, WE HAVE NO CONTROL OVER THE MANAGEMENT PRACTICES OR MANUFACTURING PROCESSES OF PARTIES HANDLING OR USING THIS MATERIAL.
THE INFORMATION PRESENTED HERE PERTAINS ONLY TO THE PRODUCT AS SHIPPED IN ITS INTENDED CONDITION AS DESCRIBED IN MSDS SECTION: Composition Information.
FOR UNUSED & UNCONTAMINATED PRODUCT, the preferred options include sending to a licensed, permitted: Incinerator or other thermal destruction device.
Landfill.

14. TRANSPORT INFORMATION

International Regulation

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

National Regulations

49 CFR (DOT) – NON BULK
Not regulated as a dangerous good

49 CFR (DOT) - BULK

Not regulated as a dangerous good

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

15. REGULATORY INFORMATION

OSHA Hazards

This product is not a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

No OSHA Hazards

EPCRA - Emergency Planning and Community Right-to-Know Act

CERCLA Reportable Quantity
This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity
This material does not contain any components with a section 304 EHS RQ.

SARA 311/312 Hazards
This product is not a hazardous chemical under 29CFR 1910.1200, and therefore is not covered by Title III of SARA.
No SARA Hazards

SARA 302
No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313
The following components are subject to reporting levels established by SARA Title III, Section 313:

<table>
<thead>
<tr>
<th>Cas No.</th>
<th>Component</th>
</tr>
</thead>
<tbody>
<tr>
<td>68-19-9</td>
<td>Cyanocobalamin</td>

Clean Air Act
This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).
This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 12 (40 CFR 61).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC’s (40 CFR 60.489).
Clean Water Act
This product does not contain any Hazardous Substances listed under the U.S. Clean Water Act, Section 311, Table 116.4A.
This product does not contain any Hazardous Chemicals listed under the U.S. Clean Water Act, Section 311, Table 117.3.
This product does not contain any toxic pollutants listed under the U.S. Clean Water Act Section 307

US State Regulations

Massachusetts Right To Know
No components are subject to the Massachusetts Right to Know Act.

Pennsylvania Right To Know
The following chemicals are listed because of the additional requirements of Pennsylvania law:
