ANGUS CHEMICAL COMPANY encourages and expects you to read and understand the entire (M)SDS, as there is important information throughout the document. We expect you to follow the precautions identified in this document unless your use conditions would necessitate other appropriate methods or actions.

1. PRODUCT AND COMPANY IDENTIFICATION

Product name: L-Asparagine Anhydrous (L-2-Aminosuccinamic Acid)

Manufacturer or supplier's details

Company name of supplier: ANGUS CHEMICAL COMPANY

Address: 1500 E. LAKE COOK ROAD
Buffalo Grove IL 60089-6553

Customer Information Number: +1-847-808-3711

E-mail address: NAR_CC@ANGUS.COM

Emergency telephone number: 800-424-9300

Recommended use of the chemical and restrictions on use

Recommended use: For laboratory use.
Life sciences research chemical.
The ANGUS Chemical Company recommends that you use this product in a manner consistent with the listed use. If your intended use is not consistent with the stated use, please contact the Customer Information Group (see Section 1 of this data sheet).

2. HAZARDS IDENTIFICATION

GHS Classification

Not a hazardous substance or mixture.
GHS Label elements, including precautionary statements
This product is not hazardous per the Globally Harmonized System of Classification and Labelling (GHS).

Other hazards
None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is a substance.

Components

<table>

4. FIRST AID MEASURES

If inhaled       Move person to fresh air; if effects occur, consult a physician.
In case of skin contact Wash off with plenty of water.
In case of eye contact Flush eyes with plenty of water; remove contact lenses after the first 1-2 minutes then continue flushing for several minutes. Only mechanical effects expected. If effects occur, consult a physician, preferably an ophthalmologist.
If swallowed     No emergency medical treatment necessary.
Most important symptoms and effects, both acute and delayed Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.
Protection of first-aiders If potential for exposure exists refer to Section 8 for specific personal protective equipment.
Notes to physician Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. No specific antidote.

5. FIREFIGHTING MEASURES

Suitable extinguishing media Water. Carbon dioxide fire extinguishers. Dry chemical fire extinguishers.
Specific hazards during firefighting Pneumatic conveying and other mechanical handling operations can generate combustible dust. To reduce the potential for dust explosions, do not permit dust to accumulate.
Hazardous combustion products
During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include and are not limited to:
- Carbon monoxide.
- Carbon dioxide.
- Nitrogen oxides.

Further information
Soak thoroughly with water to cool and prevent re-ignition. Cool surroundings with water to localize fire zone. Keep people away. Isolate fire and deny unnecessary entry.

Special protective equipment for firefighters
Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.

Environmental precautions
Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.

Methods and materials for containment and cleaning up
Collect in suitable and properly labeled containers. Use care to minimize generation of airborne dust. Contain spilled material if possible. See Section 13, Disposal Considerations, for additional information.

7. HANDLING AND STORAGE

Advice on safe handling
Good housekeeping and controlling of dusts are necessary for safe handling of product. Avoid generating and breathing dust. See Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION.

Conditions for safe storage
8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters
Contains no substances with occupational exposure limit values.

Engineering measures
Local exhaust ventilation may be necessary for some operations.
Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations.

Personal protective equipment

Respiratory protection
Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process.
In dusty or misty atmospheres, use an approved particulate respirator.
The following should be effective types of air-purifying respirators:
Particulate filter.

Hand protection
Use gloves chemically resistant to this material when prolonged or frequently repeated contact could occur.
Examples of preferred glove barrier materials include: Neoprene. Polyvinyl chloride ("PVC" or "vinyl"). Nitrile/butadiene rubber ("nitrile" or "NBR"). NOTICE: The selection of a specific glove for a particular application and duration of use in a workplace should also take into account all relevant workplace factors such as, but not limited to: Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove materials, as well as the instructions/specifications provided by the glove supplier.

Eye protection
Use safety glasses (with side shields).
If there is a potential for exposure to particles which could cause eye discomfort, wear chemical goggles.

Skin and body protection
Wear clean, body-covering clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Solid.

11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.

Acute toxicity

Product:

Acute oral toxicity  Remarks: Very low toxicity if swallowed. Harmful effects not anticipated from swallowing small amounts.

Remarks: Single dose oral LD50 has not been determined.

Acute inhalation toxicity  Remarks: At room temperature, exposure to vapor is minimal due to low volatility; single exposure is not likely to be hazardous. Dust may cause irritation to upper respiratory tract (nose and throat).
Remarks: The LC50 has not been determined.

Acute dermal toxicity Remarks: Prolonged skin contact is unlikely to result in absorption of harmful amounts.

Remarks: The dermal LD50 has not been determined.

**Skin corrosion/irritation**

**Product:**
Remarks: Brief contact is essentially nonirritating to skin.

**Serious eye damage/eye irritation**

**Product:**
Remarks: Solid or dust may cause irritation or corneal injury due to mechanical action.

**Respiratory or skin sensitization**

**Product:**
Remarks: No relevant data found.
For skin sensitization:
Remarks: No relevant data found.
For respiratory sensitization:

**Carcinogenicity**

**Product:**
No relevant data found.

**IARC**
No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

**OSHA**
No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

**NTP**
No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

**Teratogenicity**

**Product**
No relevant data found.

**Mutagenicity**

**Product**
No relevant data found.
Reproductive toxicity

**Product:**
No relevant data found.

**STOT - single exposure**

**Product:**
Assessment: Evaluation of available data suggests that this material is not an STOT-SE toxicant.

Repeated dose toxicity

**Product:**
Remarks: No relevant data found.

Aspiration toxicity

**Product:**
Aspiration Hazard
Based on available information, aspiration hazard could not be determined.

12. ECOLOGICAL INFORMATION

Ecotoxicity

**Product:**
Toxicity to fish
Remarks: No relevant information found.

Persistence and degradability

**Product:**
Biodegradability
Remarks: Material is expected to be readily biodegradable.

Bioaccumulative potential

**Product:**
Partition coefficient: n-octanol/water
Remarks: Potential for mobility in soil is very high (Koc between 0 and 50).

\[
\log \text{Pow} = -3.81
\]
Method: Estimated.
Remarks: Bioconcentration potential is low (BCF < 100 or Log Pow < 3).

Mobility in soil

**Product:**
Distribution among environmental compartments
Koc: 1
Method: Estimated.
Remarks: Potential for mobility in soil is very high (Koc
between 0 and 50).

**Other adverse effects**

**Product:**

Ozone-Depletion Potential  
Regulation: 40 CFR Protection of Environment; Part 82  
Protection of Stratospheric Ozone - CAA Section 602 Class I  
Substances  
Remarks: This product neither contains, nor was  
manufactured with a Class I or Class II ODS as defined by the  
U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A +  
B).

### 13. DISPOSAL CONSIDERATIONS

**Disposal methods**

- **Waste from residues**
  - DO NOT DUMP INTO ANY SEWERS, ON THE GROUND,  
    OR INTO ANY BODY OF WATER.  
  - All disposal practices must be in compliance with all Federal,  
    State/Provincial and local laws and regulations.  
  - Regulations may vary in different locations.  
  - Waste characterizations and compliance with applicable laws  
    are the responsibility solely of the waste generator.  
  - AS YOUR SUPPLIER, WE HAVE NO CONTROL OVER THE  
    MANAGEMENT PRACTICES OR MANUFACTURING  
    PROCESSES OF PARTIES HANDLING OR USING THIS  
    MATERIAL.  
  - THE INFORMATION PRESENTED HERE PERTAINS ONLY  
    TO THE PRODUCT AS SHIPPED IN ITS INTENDED  
    CONDITION AS DESCRIBED IN MSDS SECTION:  
    Composition Information.  
  - FOR UNUSED & UNCONTAMINATED PRODUCT, the  
    preferred options include sending to a licensed, permitted:  
    Incinerator or other thermal destruction device.

### 14. TRANSPORT INFORMATION

**International Regulation**

- **IATA-DGR**  
  Not regulated as a dangerous good

- **IMDG-Code**  
  Not regulated as a dangerous good

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**

- Not applicable for product as supplied.

**National Regulations**

- **49 CFR (DOT) – NON BULK**  
  Not regulated as a dangerous good
49 CFR (DOT) - BULK

Not regulated as a dangerous good

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

15. REGULATORY INFORMATION

OSHA Hazards
This product is not a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

EPCRA - Emergency Planning and Community Right-to-Know Act

CERCLA Reportable Quantity
This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity
This material does not contain any components with a section 304 EHS RQ.

SARA 311/312 Hazards
This product is not a hazardous chemical under 29CFR 1910.1200, and therefore is not covered by Title III of SARA.

Clean Air Act
This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).
This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 12 (40 CFR 61).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC’s (40 CFR 60.489).

Clean Water Act
This product does not contain any Hazardous Substances listed under the U.S. CleanWater Act, Section 311, Table 116.4A.
This product does not contain any Hazardous Chemicals listed under the U.S. CleanWater Act, Section 311, Table 117.3.
This product does not contain any toxic pollutants listed under the U.S. Clean Water Act Section 307

US State Regulations

Massachusetts Right To Know
No components are subject to the Massachusetts Right to Know Act.

Pennsylvania Right To Know
No components are subject to the Pennsylvania Right to Know Act

**New Jersey Right To Know**

No components are subject to the New Jersey Right to Know Act

**California Prop. 65**

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

**The components of this product are reported in the following inventories:**

United States TSCA Inventory
All components of this product are on the TSCA Inventory or are exempt from TSCA Inventory requirements under 40 CFR 720.30

---

**16. OTHER INFORMATION**

**Further information**

**NFPA:**

- **Flammability:**
  - Flammability: 1

- **Health:**
  - Health: 0

- **Instability:**
  - Instability: 0

Special hazard.
