ANGUS CHEMICAL COMPANY encourages and expects you to read and understand the entire (M)SDS, as there is important information throughout the document. We expect you to follow the precautions identified in this document unless your use conditions would necessitate other appropriate methods or actions.

1. PRODUCT AND COMPANY IDENTIFICATION

<table>
<thead>
<tr>
<th>Product name</th>
<th>L-Asparagine, Monohydrate (L-2-Aminosuccinamic Acid)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Manufacturer or supplier's details</td>

Recommended use of the chemical and restrictions on use

For laboratory use.
Life sciences research chemical.
The ANGUS Chemical Company recommends that you use this product in a manner consistent with the listed use. If your intended use is not consistent with the stated use, please contact the Customer Information Group (see Section 1 of this data sheet).

2. HAZARDS IDENTIFICATION

GHS Classification
Not a hazardous substance or mixture.
**GHS Label elements, including precautionary statements**

This product is not hazardous per the Globally Harmonized System of Classification and Labelling (GHS).

**Other hazards**
None known.

---

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is a substance.

**Components**

<table>
<thead>
<tr>
<th>Chemical Name</th>

---

### 4. FIRST AID MEASURES

- **If inhaled**
  Move person to fresh air; if effects occur, consult a physician.

- **In case of skin contact**
  Wash off with plenty of water.

- **In case of eye contact**
  Flush eyes with plenty of water; remove contact lenses after the first 1-2 minutes then continue flushing for several minutes. Only mechanical effects expected. If effects occur, consult a physician, preferably an ophthalmologist.

- **If swallowed**
  No emergency medical treatment necessary.

**Most important symptoms and effects, both acute and delayed**
Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.

**Protection of first-aiders**
If potential for exposure exists refer to Section 8 for specific personal protective equipment.

**Notes to physician**
Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. No specific antidote.

---

### 5. FIREFIGHTING MEASURES

- **Suitable extinguishing media**
  Water.
  Carbon dioxide fire extinguishers.
  Dry chemical fire extinguishers.

- **Specific hazards during firefighting**
  Pneumatic conveying and other mechanical handling operations can generate combustible dust. To reduce the potential for dust explosions, do not permit dust to accumulate.
**Hazardous combustion products**
During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating.
Combustion products may include and are not limited to:
- Carbon dioxide.
- Carbon monoxide.
- Nitrogen oxides.

**Further information**
Soak thoroughly with water to cool and prevent re-ignition.
Cool surroundings with water to localize fire zone.
Keep people away. Isolate fire and deny unnecessary entry.

**Special protective equipment for firefighters**
Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves).
If protective equipment is not available or not used, fight fire from a protected location or safe distance.

---

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**
Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.

**Environmental precautions**
Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.

**Methods and materials for containment and cleaning up**
See Section 13, Disposal Considerations, for additional information.
Contain spilled material if possible.
Collect in suitable and properly labeled containers.
Use care to minimize generation of airborne dust.

---

### 7. HANDLING AND STORAGE

**Advice on safe handling**
Keep away from heat, sparks and flame.
Good housekeeping and controlling of dusts are necessary for safe handling of product.
See Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION.
Avoid generating and breathing dust.

**Conditions for safe storage**
Avoid direct sunlight.
Keep containers tightly closed in a cool, well-ventilated place.
Store in a dry place.

---

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Components with workplace control parameters**
Contains no substances with occupational exposure limit values.

**Engineering measures**
Local exhaust ventilation may be necessary for some operations.
Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations.

**Personal protective equipment**

**Respiratory protection**
Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process.
In dusty or misty atmospheres, use an approved particulate respirator.
The following should be effective types of air-purifying respirators:
Particulate filter.

**Hand protection**
Use gloves chemically resistant to this material when prolonged or frequently repeated contact could occur.
Examples of preferred glove barrier materials include: Neoprene. Polyvinyl chloride ("PVC" or "vinyl"). Nitrile/butadiene rubber ("nitrile" or "NBR"). NOTICE: The selection of a specific glove for a particular application and duration of use in a workplace should also take into account all relevant workplace factors such as, but not limited to:
Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove materials, as well as the instructions/specifications provided by the glove supplier.

**Eye protection**
Use safety glasses (with side shields).
If there is a potential for exposure to particles which could cause eye discomfort, wear chemical goggles.

**Skin and body protection**
Wear clean, body-covering clothing.

Method: Calculated.
NOTE:  The physical data presented above are typical values and should not be construed as a specification.

10. STABILITY AND REACTIVITY

Reactivity
No dangerous reaction known under conditions of normal use.

Chemical stability
Stable under recommended storage conditions.  See Storage, Section 7.

Possibility of hazardous reactions
Polymerization will not occur.

Conditions to avoid
Avoid temperatures above 30 °C
Exposure to elevated temperatures can cause product to decompose.
Avoid direct sunlight.
Avoid moisture.

Incompatible materials
Avoid contact with:
Acids.
Bases.
Oxidizers.

Hazardous decomposition products
Decomposition products depend upon temperature, air supply and the presence of other materials.
Decomposition products can include and are not limited to:
Carbon dioxide.
Carbon monoxide.
Nitrogen oxides.

11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.

Acute toxicity

Product:

Acute oral toxicity
Remarks: Very low toxicity if swallowed.
Harmful effects not anticipated from swallowing small amounts.

Remarks: Single dose oral LD50 has not been determined.

Acute inhalation toxicity
Remarks: At room temperature, exposure to vapor is minimal due to low volatility; single exposure is not likely to be hazardous.
Dust may cause irritation to upper respiratory tract (nose and throat).
Product name: L-Asparagine, Monohydrate (L-2-Aminosuccinamic Acid)

Issue Date: 11/02/2017

Remarks: The LC50 has not been determined.

Acute dermal toxicity Remarks: Prolonged skin contact is unlikely to result in absorption of harmful amounts.

Remarks: The dermal LD50 has not been determined.

**Components:**

L-2-Aminosuccinamic Acid Monohydrate

Acute oral toxicity Remarks: The dermal LD50 has not been determined.

Acute inhalation toxicity LC50 (Rat, male and female): > 5 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist
Assessment: The substance or mixture has no acute inhalation toxicity

Acute dermal toxicity Remarks: The dermal LD50 has not been determined.

Skin corrosion/irritation

**Product:**

Remarks: Brief contact is essentially nonirritating to skin.

**Components:**

L-2-Aminosuccinamic Acid Monohydrate

Result: No skin irritation
Remarks: Brief contact is essentially nonirritating to skin.

Serious eye damage/eye irritation

**Product:**

Remarks: Solid or dust may cause irritation or corneal injury due to mechanical action.

**Components:**

L-2-Aminosuccinamic Acid Monohydrate

Result: No eye irritation
Remarks: Solid or dust may cause irritation or corneal injury due to mechanical action.

Respiratory or skin sensitization

**Product:**

Remarks: No relevant data found.
For skin sensitization:

Remarks: No relevant data found.
For respiratory sensitization:

**Components:**
L-2-Aminosuccinamic Acid Monohydrate

Remarks: No relevant data found.
For skin sensitization:
Remarks: No relevant data found.
For respiratory sensitization:

Carcinogenicity

Product:
No relevant data found.

Components:
L-2-Aminosuccinamic Acid Monohydrate
No relevant information found.

IARC
No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA
No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

NTP
No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Teratogenicity

Product
No relevant data found.

Components:
L-2-Aminosuccinamic Acid Monohydrate
No relevant data found.

Mutagenicity

Product
No relevant data found.

Components:
L-2-Aminosuccinamic Acid Monohydrate
No relevant data found.

Reproductive toxicity

Product:
No relevant data found.

**Components:**
L-2-Aminosuccinamic Acid Monohydrate

No relevant data found.

**STOT - single exposure**

**Product:**
Assessment: Evaluation of available data suggests that this material is not an STOT-SE toxicant.

**Components:**
L-2-Aminosuccinamic Acid Monohydrate

Assessment: Evaluation of available data suggests that this material is not an STOT-SE toxicant.

**STOT - repeated exposure**

**Components:**
L-2-Aminosuccinamic Acid Monohydrate

Assessment: The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

**Repeated dose toxicity**

**Product:**
Remarks: No relevant data found.

**Components:**
L-2-Aminosuccinamic Acid Monohydrate

Remarks: No relevant data found.

**Aspiration toxicity**

**Product:**
Aspiration Hazard Based on available information, aspiration hazard could not be determined.

**Components:**
L-2-Aminosuccinamic Acid Monohydrate

Based on physical properties, not likely to be an aspiration hazard.
12. ECOLOGICAL INFORMATION

Ecotoxicity

**Product:**
Toxicity to fish
Remarks: No relevant information found.

**Components:**
L-2-Aminosuccinamic Acid Monohydrate
Toxicity to fish
Remarks: No relevant data found.

Persistence and degradability

**Product:**
Biodegradability
Remarks: Material is expected to be readily biodegradable.

**Components:**
L-2-Aminosuccinamic Acid Monohydrate
Biodegradability
Result: Readily biodegradable
Remarks: Material is expected to be readily biodegradable.

Bioaccumulative potential

**Product:**
Partition coefficient: n-octanol/water
Remarks: Potential for mobility in soil is very high (Koc between 0 and 50).

\[ \text{log Pow: } -3.81 \]
Method: Estimated.
Remarks: Bioconcentration potential is low (BCF < 100 or Log Pow < 3).

**Components:**
L-2-Aminosuccinamic Acid Monohydrate
Partition coefficient: n-octanol/water
\[ \text{log Pow: } -3.81 \]
Method: estimated
Remarks: Bioconcentration potential is low (BCF < 100 or Log Pow < 3).

Mobility in soil

**Product:**
Distribution among environmental compartments
Koc: 1
Method: Estimated.
Remarks: Potential for mobility in soil is very high (Koc between 0 and 50).
Components:
L-2-Aminosuccinamic Acid Monohydrate

Distribution among environmental compartments
Koc: 1
Remarks: Potential for mobility in soil is very high (Koc between 0 and 50).

Other adverse effects

Product:
Ozone-Depletion Potential
Regulation: 40 CFR Protection of Environment; Part 82
Protection of Stratospheric Ozone - CAA Section 602 Class I Substances
Remarks: This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

Components:
L-2-Aminosuccinamic Acid Monohydrate

Results of PBT and vPvB assessment
This substance is not considered to be persistent, bioaccumulating and toxic (PBT). This substance is not considered to be very persistent and very bioaccumulating (vPvB).

Ozone-Depletion Potential
Remarks: This substance is not in Annex I of Regulation (EC) No 1005/2009 on substances that deplete the ozone layer.

13. DISPOSAL CONSIDERATIONS

Disposal methods

DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER.

All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator.

AS YOUR SUPPLIER, WE HAVE NO CONTROL OVER THE MANAGEMENT PRACTICES OR MANUFACTURING PROCESSES OF PARTIES HANDLING OR USING THIS MATERIAL.

THE INFORMATION PRESENTED HERE PERTAINS ONLY TO THE PRODUCT AS SHIPPED IN ITS INTENDED CONDITION AS DESCRIBED IN MSDS SECTION: Composition Information.

FOR UNUSED & UNCONTAMINATED PRODUCT, the preferred options include sending to a licensed, permitted: Incinerator or other thermal destruction device. Landfill.
14. TRANSPORT INFORMATION

International Regulation

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

National Regulations

49 CFR (DOT) – NON BULK
Not regulated as a dangerous good

49 CFR (DOT) - BULK
Not regulated as a dangerous good

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

15. REGULATORY INFORMATION

OSHA Hazards
This product is not a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

No OSHA Hazards

EPCRA - Emergency Planning and Community Right-to-Know Act

CERCLA Reportable Quantity
This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity
This material does not contain any components with a section 304 EHS RQ.

SARA 311/312 Hazards
This product is not a hazardous chemical under 29CFR 1910.1200, and therefore is not covered by Title III of SARA.
No SARA Hazards

SARA 302
No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.
SARA 313
This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

Clean Air Act
This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).
This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 12 (40 CFR 61).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC’s (40 CFR 60.489).

Clean Water Act
This product does not contain any Hazardous Substances listed under the U.S. CleanWater Act, Section 311, Table 116.4A.
This product does not contain any Hazardous Chemicals listed under the U.S. CleanWater Act, Section 311, Table 117.3.
This product does not contain any toxic pollutants listed under the U.S. Clean Water Act Section 307

US State Regulations

Massachusetts Right To Know
No components are subject to the Massachusetts Right to Know Act.

Pennsylvania Right To Know
No components are subject to the Pennsylvania Right to Know Act

New Jersey Right To Know
No components are subject to the New Jersey Right to Know Act

California Prop. 65
This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

The components of this product are reported in the following inventories:
United States TSCA Inventory
All components of this product are on the TSCA Inventory or are exempt from TSCA Inventory requirements under 40 CFR 720.30
