ANGUS CHEMICAL COMPANY encourages and expects you to read and understand the entire (M)SDS, as there is important information throughout the document. We expect you to follow the precautions identified in this document unless your use conditions would necessitate other appropriate methods or actions.

1. PRODUCT AND COMPANY IDENTIFICATION

Product name: Sodium Acetate Trihydrate

Manufacturer or supplier's details
Company name of supplier: ANGUS CHEMICAL COMPANY

Address: 1500 E. LAKE COOK ROAD
Buffalo Grove IL 60089-6553

Customer Information Number: +1-847-808-3711

E-mail address: NAR_CC@ANGUS.COM

Emergency telephone number: 800-424-9300

Recommended use of the chemical and restrictions on use
Recommended use: Pharmaceuticals.
The ANGUS Chemical Company recommends that you use this product in a manner consistent with the listed use. If your intended use is not consistent with the stated use, please contact the Customer Information Group (see Section 1 of this data sheet).

2. HAZARDS IDENTIFICATION

GHS Classification
Not a hazardous substance or mixture.

GHS Label elements, including precautionary statements
This product is not hazardous per the Globally Harmonized System of Classification and Labelling (GHS).

Other hazards
None known.

3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is a substance.

**Components**

<table>
<thead>
<tr>
<th>Chemical Name</th>

</thead>
<tbody>
<tr>
<td>Sodium Acetate, Trihydrate</td>
<td>6131-90-4</td>
<td>100.0%</td>
</tr>
</tbody>
</table>

4. FIRST AID MEASURES

**General advice**

Do not leave the victim unattended.

**If inhaled**

If unconscious place in recovery position and seek medical advice.
If symptoms persist, call a physician.

**In case of skin contact**

Wash with water and soap as a precaution.
Call a physician if irritation persists.

**In case of eye contact**

Remove contact lenses.
Rinse with water.
Protect unharmed eye.
If eye irritation persists, consult a specialist.

**If swallowed**

Clean mouth with water and drink afterwards plenty of water.
Keep respiratory tract clear.
Never give anything by mouth to an unconscious person.
Call a poison control center or a doctor for further treatment advice.

**Most important symptoms and effects, both acute and delayed**

Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.

**Notes to physician**

Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.
No specific antidote.

5. FIREFIGHTING MEASURES

**Suitable extinguishing media**

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
ABC powder

**Hazardous combustion products**

During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating.
Combustion products may include and are not limited to:
Carbon dioxide.
Carbon monoxide.

Further information
Keep people away. Isolate fire and deny unnecessary entry. Do not use direct water stream. May spread fire. Burning liquids may be moved by flushing with water to protect personnel and minimize property damage. Burning liquids may be extinguished by dilution with water.

Special protective equipment for firefighters
Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves).

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
Avoid dust formation.
Wear compatible, chemically resistant gloves.

Methods and materials for containment and cleaning up
Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal.

7. HANDLING AND STORAGE

Advice on protection against fire and explosion
Avoid dusting. Under dusty conditions avoid all sources of ignition, including sparks and static electricity. Provide appropriate exhaust ventilation at places where dust is formed.

Advice on safe handling
For personal protection see section 8. Remove contaminated clothing. Smoking, eating and drinking should be prohibited in the application area. Wash thoroughly after handling. Avoid generating and breathing dust.

Conditions for safe storage
Electrical installations / working materials must comply with the technological safety standards. Keep containers tightly closed in a dry, cool and well-ventilated place. Ground all metal containers during storage and handling.

Materials to avoid
No materials to be especially mentioned.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters
Contains no substances with occupational exposure limit values.

Personal protective equipment
Respiratory protection
General and local exhaust ventilation is recommended to
maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.

Hand protection

Impervious gloves

Eye protection

Safety glasses (with side shields) should be sufficient for most operations; however, for dusty operations wear chemical goggles.

Skin and body protection

Protective suit

Hygiene measures

General industrial hygiene practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Solvent: Alcohol

Auto-ignition temperature: > 600 °C

Explosive properties: No data available.

Oxidizing properties: No data available.

Molecular weight: 136.08 g/mol

NOTE: The physical data presented above are typical values and should not be construed as a specification.

10. STABILITY AND REACTIVITY

Reactivity: Product decomposes above melting temperature. Thermal decomposition can lead to release of irritating gases and vapours. Reacts violently with: strong oxidizers strong acids

Chemical stability: No decomposition if stored and applied as directed.

Possibility of hazardous reactions: No dangerous reaction known under conditions of normal use.

Conditions to avoid: None required under normal operating conditions.

Incompatible materials: Oxidizing agents

Hazardous decomposition products: Decomposition products can include and are not limited to: Carbon dioxide. carbon monoxide Sodium oxides.

11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.

Acute toxicity

Product: Acute oral toxicity Remarks: not classified

Skin corrosion/irritation

Product: Remarks: not classified
Serious eye damage/eye irritation

**Product:**
Remarks: not classified

Respiratory or skin sensitization

**Product:**
Remarks: For skin sensitization: not classified
Remarks: For respiratory sensitization: not classified

Carcinogenicity

**IARC**
No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

**OSHA**
No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

**NTP**
No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Reproductive toxicity

**Product:**
Not Classified

**STOT - single exposure**

**Product:**
Remarks: not classified

**STOT - repeated exposure**

**Product:**
Remarks: not classified

Experience with human exposure

**Product:**
Inhalation Symptoms: slight irritation, coughing
Skin contact Symptoms: slight irritation
Eye contact Symptoms: slight irritation
Ingestion
Symptoms: May cause nausea and vomiting, abdominal pain

12. ECOLOGICAL INFORMATION

Ecotoxicity

**Product:**
Toxicity to fish
LC50: > 100 mg/l
Exposure time: 96 h
Remarks: Material is practically non-toxic to aquatic organisms on an acute basis (LC50/EC50/EL50/LL50 >100 mg/L in the most sensitive species tested).

Persistence and degradability
no data available

Bioaccumulative potential
no data available

Mobility in soil
no data available

Other adverse effects
no data available

13. DISPOSAL CONSIDERATIONS

Disposal methods
Waste from residues
DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER.
All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations.
Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator.
THE INFORMATION PRESENTED HERE PERTAINS ONLY TO THE PRODUCT AS SHIPPED IN ITS INTENDED CONDITION AS DESCRIBED IN MSDS SECTION: Composition Information.
FOR UNUSED & UNCONTAMINATED PRODUCT, the preferred options include sending to a licensed, permitted: Incinerator or other thermal destruction device. Landfill. ANGUS HAS NO CONTROL OVER THE MANAGEMENT PRACTICES OR MANUFACTURING PROCESSES OF PARTIES HANDLING OR USING THIS MATERIAL.

Contaminated packaging
Empty containers should be taken to an approved waste handling site for recycling or disposal.
14. TRANSPORT INFORMATION

International Regulation

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

National Regulations

49 CFR (DOT) – NON BULK
Not regulated as a dangerous good

49 CFR (DOT) - BULK
Not regulated as a dangerous good

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

15. REGULATORY INFORMATION

OSHA Hazards
Combustible dust

EPCRA - Emergency Planning and Community Right-to-Know Act

CERCLA Reportable Quantity
This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity
This material does not contain any components with a section 304 EHS RQ.

SARA 311/312 Hazards
No SARA Hazards

SARA 302
No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313
This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

Clean Water Act
This product does not contain any Hazardous Substances listed under the U.S. CleanWater Act, Section 311, Table 116.4A.
This product does not contain any Hazardous Chemicals listed under the U.S. CleanWater Act, Section 311, Table 117.3.
This product does not contain any toxic pollutants listed under the U.S. Clean Water Act Section 307

**US State Regulations**

**Massachusetts Right To Know**
No components are subject to the Massachusetts Right to Know Act.

**Pennsylvania Right To Know**
The following chemicals are listed because of the additional requirements of Pennsylvania law:

<table>
<thead>
<tr>
<th>Cas No.</th>
<th>Component</th>
</tr>
</thead>
<tbody>
<tr>
<td>6131-90-4</td>
<td>Sodium Acetate, Trihydrate</td>
</tr>
</tbody>
</table>

**New Jersey Right To Know**
The following chemicals are listed because of the additional requirements of New Jersey law:

<table>
<thead>
<tr>
<th>Cas No.</th>
<th>Component</th>
</tr>
</thead>
<tbody>
<tr>
<td>6131-90-4</td>
<td>Sodium Acetate, Trihydrate</td>
</tr>
</tbody>
</table>

**California Prop. 65**
This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

**The components of this product are reported in the following inventories:**

US. Toxic Substances Control Act
All components of this product are on the TSCA Inventory or are exempt from TSCA Inventory requirements under 40 CFR 720.30

The anhydrous form of this material is listed on the United States TSCA (Toxic Substance Control Act) inventory
